Dear Marcel,

An introduction (greeting, who you are, where you are from)

A comparison between your life here in Canada and his life in Camden (2 similarities or differences).

Choose three strategies (we discussed many more than this) that he could use to get himself out of poverty by the time he is 20.

Provide three examples of what you have learned about the causes of poverty.

Ask Marcel any questions that you have about his situation that he might be able to answer.

Closing.

Sincerely,
